Mrs. Jayita Biswas
Principal

Today education must be viewed in a broad sense. It should not merely remain as a possibility to achieve academic excellence rather our curriculum and extra-curricular activities must encourage every student to develop respectful relationships with their peers, teachers and the society. It must instil in them a keen social conscience and the capacity to make ethical decisions. The purpose of education must be to create a supportive and inclusive environment where students are encouraged to explore their potential to achieve their personal best in all aspects of their school life.
